Summary

B.E. Computer Science and Engineering graduate with hands-on experience in end-to-end MERN stack development and REST API development. Proficient in JavaScript, Java, and Python with a strong foundation in Data Structures and Algorithms. Experienced in data analysis and visualization using Pandas, NumPy, and Power BI, with a focus on building practical, scalable applications.

Projects

Retail Billing & Customer Management System

Jun 2024 – Oct 2024

- Developed a web-based billing and customer record management system to replace manual billing and customer record maintenance in retail operations.
- Implemented product-wise billing with quantity, unit price and automatic total calculation, along with customer record creation, update and deletion.
- Added Excel-based bill generation and date-range filtering/export of customer records using ExcelJS, enabling easy printing and historical record retrieval.
- Built using MongoDB, Express.js, React.js and Node.js, with REST APIs for frontend-backend communication and persistent customer data storage.

Customer Analysis

Jan 2025 – May 2025

- Analysed supermarket sales data to identify customer purchasing patterns and generate actionable business insights from transactional data.
- Performed data cleaning and ETL operations, including handling missing values, removing duplicate records and preparing the dataset for analysis.
- Developed an interactive Power BI dashboard to visualize sales performance, customer trends and key business metrics for easier data-driven analysis.
- Used Python, Pandas and NumPy for data processing and analysis, with Power BI for interactive visualization and dashboard development.

Skill Set

Language: Python, Java, JavaScript
Development: React.js, Node.js, Express.js, MongoDB, REST API
Data Science Analytics: SQL, Pandas, NumPy, Power BI
Database: MySQL, MongoDB

Certification

- Prepare Data for Exploration By GOOGLE
- Machine Learning By IBM
- Object-Oriented Programming Onramp By MATHWORKS

Education

Sathyabama Institute of Science and Technology

Aug 2022 - May 2026

Bachelor of Engineering in Computer Science and Engineering (CGPA: 7.63/10.00)

Jawahar higher-secondary School

2020

Secondary Education (10th CBSE) 71 / 100

Jawahar higher-secondary School

2022

Higher Secondary (12th CBSE) 67.6 / 100
